MRT-700

MRT-700 underground cable and pipe locator maps quickly, easily and accurately energized and de-energized MV and LV distribution networks.

- ✓ 7 sensors
- ✓ Excellent locating precision
- ✓ High accuracy and definition
- ✓ 2D LCD display
- ✓ Automatic current direction
- ✓ Easy drive (intuitive performance)

RECEIVER MRT-700

- 4 active tracing frequencies
- Frequencies : 2 sondes 8 and 33 kHz
- Passives frequencies
- Readind depth (cm) and current (mA) at the same time
- 50 Hz presence of electric network
- Automatic or manual gain level
- Compass
- Differents detection modes
- Signal power
- Bluetooth connection
- Actual depth display (5% of precision at 3m)
- Autonomy : 10 h
- Performance : 10 km
- IP54
- Temperature range : -20°C + 55°C
- Weight : 1,5 kg

GENERATOR 10 W MRT-700

- Power : 10 W
- Power : rechargeable battery Li-Ion
- Autonomy : > 10 h max power
- Weight : 3,1 kg
- Connection type : induction, direct connection, clamp
- Current display
- Available frequencies : current direction, 640 Hz, 8 kHz, 32 kHz

MRT-700 was in harmony with the standards IEC61000-6-2 / 61000-6-4 / 61010-1 CATIV

Options

- Tracking cable
- Fault finding
- KLM export (Android and Apple application)
- Accessories on request

Warranty : 2 years
